Weights & Colors

With golf discs we assume that a 4-5 gram variation is acceptable and color is not critical unless the customer requests otherwise. Since colors of golf discs are inconsistent, it is difficult to fill orders placed by color. Most golf discs are available from the 140 to the 180 gram range depending on the Pro Disc Golf standards for disc golf weight and manufacturers availability. The weight range is listed on each disc description. With Ultimate discs we assume color is more important and we will not substitute unless it is ok'd by the customer.
